

CANOPY INSTALLATION INFORMATION

Thank you for purchasing a Solent canopy. Please use the below as a guide when installing your canopy.

Regulator

If you are operating your ceiling fan with a Regulator, make sure your canopy is fixed correctly and is sitting flush with your ceiling. Ensure that there is a 8mm gap between the motor and the canopy.

Remote Control

If you are operating your ceiling fan with a Remote Control, make sure that the receiver unit is sitting inside the canopy and fix the canopy so that it sits flush with your ceiling. Ensure that there is a 8mm gap between the motor and the canopy.
